***Microfiber*** is a very fine synthetic fiber composed of 80% polyester and 20% polyamide (nylon).

This creates a fiber that is 100 times finer than human hair. This dense construction creates a split microfiber that is positively charged and attracts negatively charged dust particles.

**Testing shows many advantages to using Nexstep Commercial Products' microfiber products:**

- **REMOVE** over 95% of microorganisms using our microfiber wet mopping pad compared to 65% when using a traditional loop-end mop.
- **REDUCE** chemical consumption by up to 90% by using far less chemicals than traditional mops require.
- **REDUCE** workplace injuries because our microfiber products require less heavy lifting and movement than traditional cleaning tools.
- **REMOVE** up to 75% more dust and dirt as our microfiber dust mops clean more effectively than traditional cotton dust mops.
- **REACH** hidden dust and dirt in crevices that ordinary fibers simply pass over.
- **LAUNDERABLE** up to 500 times while withstanding up to 200 degree water for bleach-free laundering.

**All Nexstep Commercial Products' Microfiber Pads** have microfiber liners, preventing the bacteria and odor that occur with sponge liners.

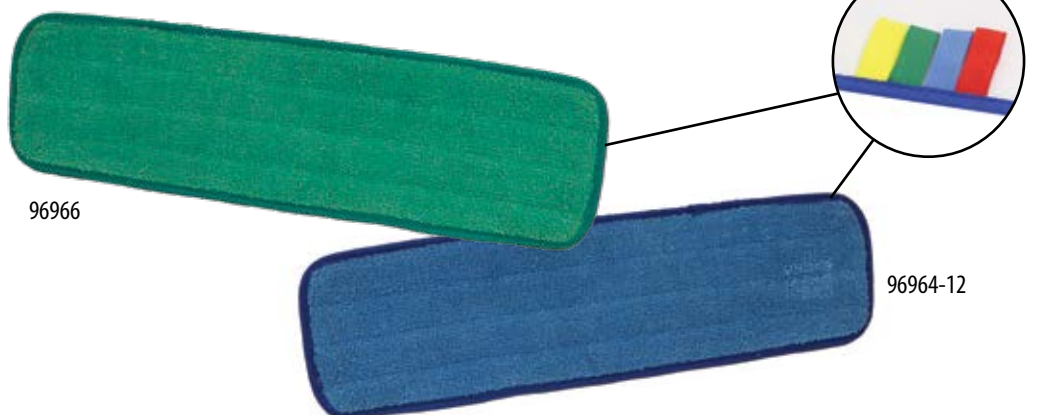

## MaxiPlus® Microfiber Pads

- 5" wide pad picks up 75% more dirt and dust per swipe than traditional mops
- **Microfiber liner prevents bacteria growth** caused by standard sponge liners
- Pad absorbs seven times its weight in liquid for all mopping procedures
- Continuous reinforced sewn edges eliminate fraying for extended use
- Save more and waste less with this removable pad that can be **laundered** up to **500 times**

**REMOVES 99%  
OF BACTERIA**

# MaxiPlus®

## MICROFIBER CART

Nexstep Commercial Products' high-capacity microfiber cleaning cart neatly stores and transports your essential tools and supplies. Its innovative dual bucket functionality for effective floor and surface cleaning prevents bacteria and dirty water from entering the sanitization process and the color-coded features significantly minimize cross-contamination.

*The essential solution to strengthen your microfiber program!*

- Open design for easy access; non-rusting, extremely durable steel construction
- Sliding middle shelf provides convenient access and locks securely for transport
- Maneuvers easily in confined areas; 5" non-marking swivel casters
- Rear casters have foot-activated, top-locking brakes to secure and prevent movement
- Flexible plastic tool holder secures handles of any diameter; perfect for our MaxiPlus® All-in-One Cleaning System
- Convenient hook to store wet floor sign
- Plastic Buckets for MaxiPlus® Microfiber Cart sold separately (#6930)
- Assembled Dimensions:  
Cart only: 35" x 27.5" x 41"  
Cart with buckets: 35" x 30" x 42"

# Plastic Buckets

## FOR MAXIPLUS® MICROFIBER CART

- Four, 5.5 quart buckets w/lids & color-coded handles separates clean & used cloths; ideal for MaxiPlus® Microfiber Cloths. For use on top shelf

## Private Label

Customize wet mops by having your desired information printed in black on your tag. Your tag is sewn into the mop and then the mop is placed in a clear polybag - your “private labeled” mop.

- Add “-PL” to end of item number

## Mop Size Identification Chart - By Band Color

| Headband Color | Loop-End Size |
|----------------|---------------|
| Yellow.....    | Small         |
| Green.....     | Medium        |
| Red.....       | Large         |
| Blue.....      | X-large       |

## Sizing

Wet mop sizing is important to overall mopping efficiency. A wet mop should be sized both to the person who will be mopping and to the mop wringer with which it will be used. Most mops are sized according to the weight of the yarn they contain. Blended mops have made this sizing method confusing and obsolete because a lighter-weight blended mop can pick up more water than a heavier, all cotton mop. Therefore, loop-end blended mops are sized according to their pickup capability and the wringer size they will fit rather than yarn weight.

## Co-Brand

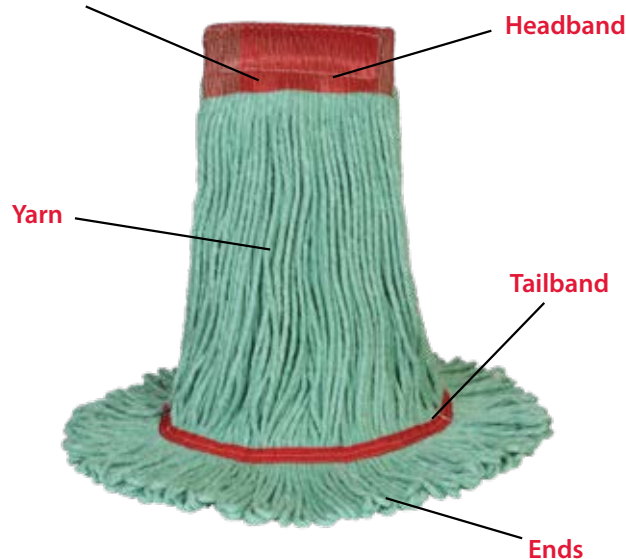

Customize wet mops by having your information printed in black on your tag. Your tag is sewn into mop and your “private labeled” mop is then placed in an Nexstep Commercial Products’ attention-grabbing three-color polybag.

- Add “-PCB” to end of item number (Loop-End Mops only)

## Mop Construction

Mop Size Identified by  
Band Color

### Construction

#### Loop-End Mops

Will not fray or ravel with use like cut-end mops. Can be laundered for better effectiveness and clean appearance. With proper laundering, mop will last 8 to 10 times longer than a cut-end mop, ultimately making it a more economical choice.

#### Cut-End Mops

Economical for general purpose floor cleaning. Not launderable, so the product life is relatively short. Tends to "lint," lose strands and leave uneven gaps on floor surfaces.

#### Screw-On Mops

A plastic injection-molded cap that incorporates a metal threaded stud and accepts any standard screw-on handle. Designed for the mop to lay on the floor for more efficient mopping.

#### Connector Mops

A plastic injection-molded cap that incorporates a threaded insert and accepts any standard threaded handle. Designed for the mop to lay on the floor for more efficient mopping.

#### Headband

5" PVC coated mesh headband is secured to the mop with 6 rows of lock-stitching and back-tacked to properly secure headband to mop. The mesh headband offers greater durability and allows the yarn to dry thoroughly.

#### Tailband

A woven 1/2" tape sewn toward the bottom of the mop to secure the yarn and prevent tangling. Cleans 50% more floor per stroke and mops evenly without leaving gaps for faster mopping and lower labor cost. Standard on all loop-end mops.

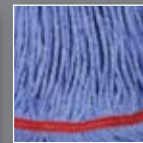

## Important Factors to Consider

### Absorbency

The absorbency of a mop refers to its ability to pick up and hold liquid. Higher levels allow floors to dry faster, leading to greater productivity and worker safety. Microfiber, Cotton/Synthetic blend, and Cotton yarns have the highest absorbency.

MaxiSorb®

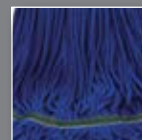

MaxiClean®

MaxiCotton®

### Durability

The durability of a mop is a measure of how long it will perform before needing to be replaced. Microfiber, Synthetic Blend, and Cotton/Synthetic Blend mops are the most durable. Mops with anti-microbial fibers have greater durability because they inhibit the bacterial growth that causes mop odor, discoloration, and mildew that breaks down the fiber.

MaxiPlus® MF

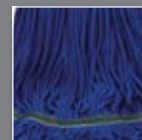

Shrinkless

Premium™

### Launderability

The launderability of a mop is based on the number of commercial washing and drying cycles it can withstand before the construction of the mop is degraded or the performance declines. Microfiber, Cotton/Synthetic Blend, and Synthetic Blend mops have the highest levels of launderability.

MaxiPlus® MF

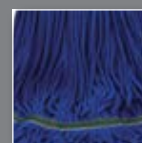

Premium™

Shrinkless

### Release

Release is the ability of a mop to disperse liquid onto the floor or during wringing. Higher levels allow faster and more complete wringing, as well as more efficient application of cleaning solutions on the floor. Microfiber, Synthetic Blend, Rayon yarns offer the best release of liquids.

MaxiPlus® MF

Shrinkless

MaxiRayon®

## Choosing a Wet Mop

### MaxiPlus® Microfiber (Page 16)

Attracts dust particles, removing up to 75% more dust and dirt than traditional cotton mops. Reaches into crevices that ordinary fibers pass over. Uses far less chemicals. Can be laundered up to **500 times**.

### Premium™ Cotton/Synthetic Blend (Page 17)

Combines high on-floor performance with long product life. Cotton fibers provide high water absorption and retention for effective floor drying. Synthetic fibers such as rayon afford maximum water pickup and require no "break-in." Other synthetic fibers such as polyester give increased strength and long product life.

### Shrinkless Synthetic Blend (Page 17)

Made from a combination of rayon, polyester, and acrylic fibers. Great for dispensing chemicals and liquids. Highly absorbent, picking up 3-4 times its weight; little "break-in" required. Inhibits the growth of bacteria, mold, mildew, and fungi that causes odors. Less linting than many other blended fibers.

### Supreme™ Nylon (Page 19)

The ultimate mop for applying floor finish. Tightly spun nylon yarn glides along the floor surface with less drag, greatly reducing worker fatigue while evenly distributing finish.

### MaxiRayon™ Rayon (Page 19)

Contains no pepper trash or oils. Used primarily in special applications such as floor finishing. While offering extremely high water pickup, has relatively low water retention, making it less effective for general purpose mopping.

### MaxiCotton™ Cotton (Page 19)

Effective and economical for general floor cleaning. High absorbency allows fast floor drying. Susceptible to mildew that can rot mop yarn and shorten product life. "Break-in" needed to remove natural oils and gain full absorbency of mop.

## Innovative Packaging Flat-Pak™ and Overwrap Mop Packaging

### Nexstep Commercial Products

offers two unique, environmentally-friendly, mop packaging options – our exclusive Flat-Pak™ Cartons & Overwrapped Bundles.

**Flat-Pak™ Mop Cartons** reduce the size of a standard mop carton by 45% saving valuable space for our customers. Individual mops are inserted in poly bags and the air is removed to compress flat. In addition...

- With state-of-the-art engineering, our cartons use the least amount of corrugated material while providing superior product protection
- All of our cartons are made of 100% recycled pulp reducing the waste going into landfills and conserving natural resources.

**Overwrap Mop Packaging** eliminates the cardboard entirely, which can significantly lower your price per mop. In addition...

- Compact packaging creates less waste
- Eliminates all corrugated materials
- Comprehensively tested to ensure outstanding product protection in transit and, unlike a brick pack, does not damage the fibers
- Wet mops retain their appearance, stack easily and are more convenient to receive, store, and inventory

Nexstep Commercial mops perform directly out of their packaging with both options. Private labeling is available with either packaging option, and your private labeled mop tag is always sewn into the mop head.

### Biodegradable Materials

Many of our items are made with recyclable materials, including the vast majority of the yarn used in manufacturing our wet mops. The yarn is made from 100% Post Industrial Waste making it completely biodegradable. Environmental advantages include:

- Made from renewable resources
- Produces far less pollution
- Compostable - decompose naturally over short periods of time

## MaxiPlus® Microfiber Loop-End Mops

- **Split microfiber** provides **unmatched cleaning performance** attracting more dirt than traditional mops
- Floors dry faster with non-streaking microfiber and use substantially less cleaning agent than traditional mops
- Tailband allows mop to spread evenly on the floor to cover more surface area and reduce labor
- Save more and waste less with this mop that can be **laundered up to 500 times**
- **Rubberized 5" mesh headband** allows for excessive laundering
- Color-coded for use segregation

**REMOVES 99%  
OF BACTERIA**

## **Angle Brooms**

The leading trend of future cleaning, Nexstep Commercial Products' **PET fibers**, used for our angle brooms and brushes, are made from recycled materials. P.E.T. stands for polyethylene terephthalate and contains content made from recycled plastics such as water bottles. Benefits of using this recycled plastic include:

- Reduces pollution
- Consumes less energy and protects natural resources
- Saves depleting landfill space

# MaxiPlus®

## Professional Angle Brooms

- Extra wide **14" sweeping surface** cleans larger areas in less time
- Solid block, meaning no chance of separation from shroud
- Deep thread insert prevents breaking of handle tip
- Sturdy **48" x 1" steel handle** will not crack, warp, or splinter
- Fully washable, long-lasting synthetic bristles will not wear down, break, or fall out like conventional corn bristles
- **Flagged PET bristles** sweep the finest particles; great for front-of-the-house use in food service
- **Unflagged PET bristles** prevent ends from matting together; great for back-of-the-house use in food service
- 91353: **Fully assembled** with 12" wide dust pan
- 6.25" long fiber

## Lobby Dust Pan

- Thin edge makes sweeping up particles quick and easy
- Reinforced yoke eliminates cracking from repeated downward pressure to unlock handle
- **Easy-Lock™ handle** securely locks handle in upright position for hands-free emptying
- Swivel hang cap on handle allows product to be hung in any direction to best utilize space
- **Entry level lobby dust pan** ideal for use in retail spaces, restaurants, and hotels
- **11.625" opening**; 30" x 1 $\frac{3}{16}$ " handle

## Natural Bristles

### Horsehair

Produced from the tail and the mane, the soft horsehair comes in black and gray. Horsehair is used in a variety of brushes due to its durability. Should not be used on wet or oily surfaces.

### Palmyra

Natural medium stiff fibers from the palmyra palm. Extremely durable, brown in color, has good bristle bend recovery, is economical and tough, and is an excellent choice for general sweeping. Can be used wet or dry.

### Tampico

Soft to medium stiff fiber from the agave plant. Durable and retains shape after continual use. Highly resistant to heat, alkalies, solvents, and acids. Has excellent water retention and will maintain stiffness while wet.

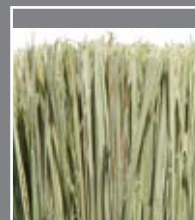

### Broomcorn

The broomcorn fiber comes from the tassel of the sorghum stalk. Broomcorn lasts longer and sweeps better because each fiber is covered with hair-like follicles that trap and hold dirt particles. It is water-resistant and wears very well, making it the premium broom fiber. It is suitable for any floor surface.

### Rattan

Similar to bamboo in appearance, rattan provides stiffness in a broom when placed inside with layers of quality broomcorn on the outside. Excellent for use in wet areas.

### Yucca/Sotol

Corn/yucca blend brooms are constructed of broomcorn and yucca fibers from the yucca plant. Yucca is a member of the agave plant family. The stiff fibers are used to make the broom's core, which is then wrapped with a layer of broomcorn. This makes a strong broom suitable for sweeping on concrete.

## Synthetic Bristles

### Nylon

A flexible, silky synthetic fiber that has a very high heat tolerance – up to 350°F. Very durable and excellent abrasion resistance. Will not stain, mat, discolor, or absorb odors. Excellent for food service.

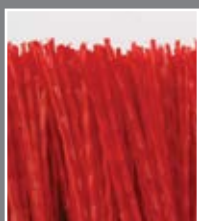

### Polyester

Excellent chemical resistance and bristle bend recovery. Very good abrasion resistance and tear/break strength. Sustains temperature up to 400°F.

### Polystyrene

This fiber is highly resistant to acid and detergents. Polystyrene has excellent flexibility and wear durability. Should not be used with sweeping compounds.

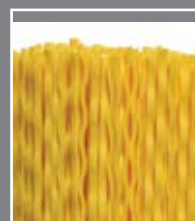

### Polypropylene

Available in many colors and weights for different applications. Resistant to acids, oils, fungi, and bacterial growth. Sustains temperatures up to 225°F. An excellent synthetic fiber for food service, and also perfect sweeping or scrubbing takes place on wet or dry surfaces.

### PET

Waterproof; dries quickly. Resistant to acids, oils, and bacterial growth. Ends are often flagged (Feather Tip™) to provide a soft brushing face that picks up fine dust particles. Excellent for food service, and also perfect where sweeping or scrubbing take place on wet or dry surfaces.

### Polycorn

Made from polypropylene which gives good sweeping performance indoors or outdoors. The thicker fibers are long wearing, don't absorb water, and are resistant to most chemicals, detergents, and mildew. Especially good in damp environments and can even be used on low-pile carpet.

## Blocks

### Wood Blocks

Quality wood blocks provide classic, traditional durability and dependability. Two threaded or tapered holes provide long product life.

### Structural Foam Blocks

These non-absorbent plastic blocks are made with fine synthetic cellular core surrounded by a solid skin. Lighter in weight, these blocks will not crack, split, warp, or house bacteria.

### Fill Design

Staggered hole patterns prevent gaps in fill material for better performance. Dense fill leads to longer life. Flagged tips pick up fine dust and debris. Flared ends allow access to corners.

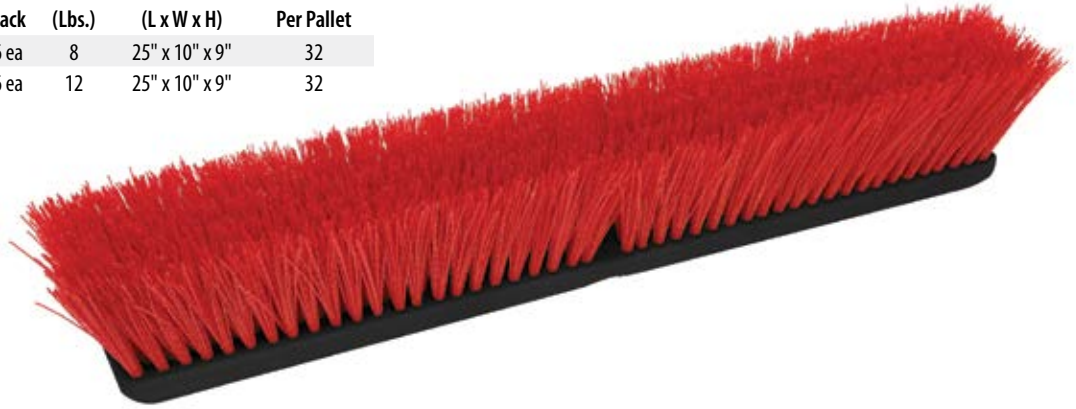

## Heavy Duty Sweeps

- **3.25" crimped red polypropylene fill** perfect for scrubbing on wet or dry surfaces
- Solvent and grease-resistant stiff fiber sweeps heavy dirt over rough surfaces
- Durable hygienic non-absorbent **foam block** with two **threaded holes**
- Handle Brace sold separately (see pages 70)

96324-6

| Item#   | Description          | Case Pack | Case Wt. (Lbs.) | Case Dimensions (L x W x H) | Cases Per Pallet |
|---------|----------------------|-----------|-----------------|-----------------------------|------------------|

| 20612 | Heavy Duty 24" Street Broom | 6 ea      | 24              | 13" x 15" x 25"             | 18               |

## Highway Street Broom

- **Stiff orange polypro fibers** work great for roadways and construction cleanup
- 5.25" trim is unaffected by moisture, insects, chemicals, and bacteria
- Designed to sweep gravel, wet or hardened mud, and asphalt on roadways
- **Wood block** with two **tapered holes**
- Handle Brace sold separately (see pages 70)

## Handle with Super Tuff™ Threads

- **Wood handle**
- **Super Tuff™ nylon threads** prevent thread breakage

| Item# | Description                                     | Case Pack | Case Wt. (Lbs.) | Case Dimensions (L x W x H) | Cases Per Pallet |
|-------|-------------------------------------------------|-----------|-----------------|-----------------------------|------------------|
| 25430 | 60" x 1 5/16" Wood Handle w/Super Tuff™ Threads | 12 ea     | 14              | 61" x 6" x 4"               | 108              |

## 60" Threaded Aluminum Extension Handle

- Extremely **lightweight but strong**
- Conforms with foodservice standards
- **Extends from 34.25" to 60"**
- Perfect handle for our microfiber frames (see page 7) and pad holder (see page 93)

| Item# | Description                                 | Case Pack | Case Wt. (Lbs.) | Case Dimensions (L x W x H) | Cases Per Pallet |
|-------|---------------------------------------------|-----------|-----------------|-----------------------------|------------------|
| 96151 | 60" x 1" Threaded Aluminum Extension Handle | 12 ea     | 8               | 37" x 6" x 4"               | 60               |

## Handle Brace

- Brace provides support, reduces breakage, and adds life to a handle when sweeping large accumulations
- All parts are **plated for rust-resistance** and come with necessary hardware instructions

| Item# | Description  | Case Pack | Case Wt. (Lbs.) | Case Dimensions (L x W x H) | Cases Per Pallet |
|-------|--------------|-----------|-----------------|-----------------------------|------------------|
| 96640 | Handle Brace | 12 ea     | 4               | 13" x 5" x 4"               | 144              |

## Baseboard Brush

- Triangular design cleans baseboards, molding, and floor edges
- 5" stiff solvent-resistant **poly fiber**
- Durable, hygienic non-absorbent **3" wide foam block** with one threaded hole
- Use with **threaded handle** (see pages 69-70)

| Item# | Description     | Case Pack | Case Wt. (Lbs.) | Case Dimensions (L x W x H) | Cases Per Pallet |
|-------|-----------------|-----------|-----------------|-----------------------------|------------------|
| 20414 | Baseboard Brush | 12 ea     | 12              | 19" x 15" x 6"              | N/A              |

## Grout Brush

- Chiseled trim ("V" shape) of **very stiff red polyester bristles** makes cleaning the narrowest of grout lines and corners quick and easy
- Swivel connector pivots 180 degrees and allows brush to glide along grout lines
- Cleans grout from a standing position
- 1.5" trim; 9" long x 1.5" wide **plastic block**
- Use with **threaded handle** (see pages 69-70)

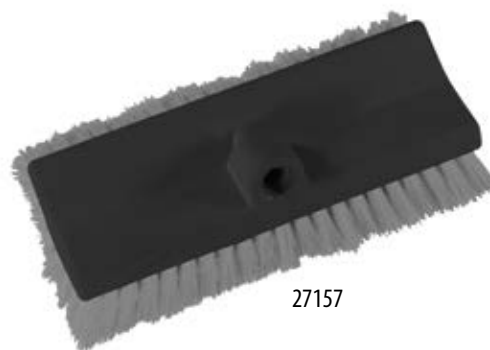

| Item# | Description | Case Pack | Case Wt. (Lbs.) | Case Dimensions (L x W x H) | Cases Per Pallet |
|-------|-------------|-----------|-----------------|-----------------------------|------------------|
| 96175 | Grout Brush | 6 ea      | 3               | 9" x 10" x 5"               | 200              |

## Vehicle Brushes

- **Flow-thru style Dura-Block** detail brushes are densely filled with **2.5" medium to very soft polystyrene filaments**
- Brushes have soft vinyl bumpers to protect vehicle surfaces
- Designed to hold liquids and wash smooth surfaces thoroughly and easily without marring or scratching
- 3" wide **foam block**
- 27156-6: Use with threaded handle (see pages 69-70)
- 27152-6, 96066, 27155-6: One tapered hole and one threaded hole

| Item#   | Description                               | Case Pack | Case Wt. (Lbs.) | Case Dimensions (L x W x H) | Cases Per Pallet |

6LP92

## MaxiPlus® Plastic Riser

- Riser mounts under a steel, aluminum or plastic clutch plate giving you **extra clearance** between the top of the brush and the apron of a single brush floor buffer; allows you to **use a larger brush and increase productivity**
- Mounts over a 5" center hole**

| Item# | Description                             | Case Pack | Case Wt. (Lbs.) | Case Dimensions (L x W x H) | Cases Per Pallet |
|-------|-----------------------------------------|-----------|-----------------|-----------------------------|------------------|
| 6RR   | MaxiPlus® 1" High Density Plastic Riser | 1 ea      | 1               | 10" x 15" x 2"              | N/A              |

**General:**

- (a) All orders are subject to approval by Nexstep Commercial Products.
- (b) Prices are subject to change without notice.
- (c) Prices charged will be the prices in effect at the time the order is placed.

**Minimum Order/Standard Freight Terms:**

- (a) Minimum order is \$500.
- (b) Minimum opening order for a new customer is \$1,200.
- (c) East of Rockies, shipments of \$2,000 or more, FOB Origin/Freight Prepaid, via carrier of our selection within the 48 contiguous states. Under \$2,000, FOB Origin/Freight Collect.
- (d) West of Rockies, shipments of \$2,600 or more, FOB Origin/Freight Prepaid, via carrier of our selection within the 48 contiguous states. Under \$2,600, FOB Origin/Freight Collect.
- (e) For redistributors, shipments of \$5,000 or more, FOB Origin/Freight Prepaid, via carrier of our selection within the 48 contiguous states. Under \$5,000, FOB Origin/Freight Collect.
- (f) Accessorial delivery and detention charges are the responsibility of the receiver.
- (g) Claims for shortages or damages must be made to Nexstep Commercial Products within 24 hours from date of receipt of shipment, any shortage must be signed and communicated to Nexstep Commercial Products' Customer Service Dept.
- (h) Credit memos expire after 180 days. Please specify credit memo number on remittance advice to apply.

**Changes to PO's received:**

Any change, including an add-on, must be received within 24 hours of the original order date to guarantee shipment together. After 24 hours, the existing PO cannot be adjusted and a new, separate PO must be submitted. Customer is responsible for any additional freight charges if new PO is under PPF Minimum.

**Non-Preferred Carrier:**

Nexstep Commercial Products reserves the right to determine the most economical routing of all prepaid shipments. Nexstep Commercial Products will not pay for special service fees such as "sort and segregate" or "call for delivery appointment." Prepaid freight includes dock to dock shipping only. Call our Customer Service Dept. for quotes on services such as driver or lumper unload, sort & segregate, lift gate service, or prison/residential/inside deliveries, etc. Additionally Nexstep Commercial Products will not be liable for any additional charges that may be incurred by using a non-preferred carrier.

**Standard Payment Terms:**

Net 30 days. Orders are invoiced the day they ship from our distribution center in Paxton, Illinois and payment is due within 30 days of the invoice date. Interest of 1.5% per month will be charged on any open balance exceeding 30 days.

**Credit**

To establish credit, call customer service at 937-322-5163 or print Credit Application from our website at [www.Nexstep-USA.com](http://www.Nexstep-USA.com).

**Returned Goods Policy:**

Merchandise will be accepted for credit only with prior approval from Nexstep Commercial Products within 1 year of delivery. Authorized returns will only be accepted in unopened original cartons, freight prepaid by the customer, and require a 20% restocking fee. Private labeled, discontinued, or customized merchandise cannot be returned for credit. Returns must have RMA#; contact Customer Service Dept. at 937-322-5163 prior to return for an RMA#.

**Private Label:**

At Nexstep Commercial Products, eligible wet mops may be customized with a minimum order (per item #) of 144 each. Private labeling may be available for other items, please inquire with our Customer Service Department.

**Bids:**

Nexstep Commercial Products reserves the right to provide bid pricing to only Authorized Distributors. All Authorized Nexstep Commercial Products Distributors must use stock pricing on invoices. To receive rebate for bid pricing, distributors must submit POD documentation and the Nexstep bid number. Nexstep must be notified in advance of items awarded; standard lead times may not apply.

**Credit Cards:**

We accept Visa, MasterCard, and American Express. Customers will be charged a 3.5% convenience fee for payments made by credit cards.

**Warranty Statement:**

Nexstep Commercial Products will replace or repair any defective product within a year of the purchase date. To report a defective product, please contact customer service at 937-322-5163. Nexstep Commercial Products may request a proof of purchase to arrange a repair or replacement. The warranty is void if a product suffers misuse, abuse, modification, or failure to follow instructions. The warranty does not apply to nondurable goods.

**Back-Orders:**

All backordered products of regular weight and size will be shipped prepaid. Anything defined as oversized by ground carriers, will ship to the customer at a special, lower prepaid minimum of \$750 East of Rockies, or \$1,000 West of Rockies. This is to palletize product so to avoid damages in transit. If minimum cannot be met, customer is responsible for freight charges of the backorder shipment if oversized product included.

Our commitment to **MADE in the USA** has never been stronger.

We have invested millions of dollars and countless hours to manufacture our products efficiently in the United States.

To us, Made in the USA is so much more than a tagline. It means Americans are at work, and we are strengthening our economy, saving on shipping costs, and keeping people working in our communities across America.

We are proud of the steps we have taken these past decades and look to further expand on the "**Made in the USA**" brand that has made us a leader in this important endeavor.
